Measure, Appointment or Topic: HB3825

Good Morning,

My name is Monique Bochsler and I'm writing to you in opposition to HB 3825. This will have the ability to backfire on the victims. Monetary obligation is part of the process. When we mess with the ability for people to pay back to society, we take the ability from their process.

We must focus on helping law abiding citizens and stop trying to find short cuts for those who do not.

Thanks for your time

Monique Bochsler
