

Submitter:

Cody Benson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Doubt in our elections is a bipartisan issue. Anything we can do to restore the confidence of Oregonians in our elections process and that we are truly being represented should be done. Part of that problem involves never having to talk to each other and join together with our neighbors we disagree with. In person paper ballots gives peace of mind as well as a chance to build community and see those people we are told to hate for how they vote as who they are humans. This measure is exactly what we need, a sure footing in unsure times. Please support this so that we can be confident in our elections, and trust that our government still is of, by, and for the people.
