

Submitter:

Katelyn Hall

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As someone with a chronic pain condition, being able to vote by mail is critical for making sure my voice is heard in our democracy no matter what symptoms my body may be experiencing on Election Day. If I have a pain flare up, I would not be able to wait in line to cast my ballot in person. In addition, as a busy mother of a young daughter, vote by mail allows me to take part in our great democracy without having to worry about in impact to our already very full schedule. For me, and many many others like me, please preserve Oregon's incredible vote by mail system. Thank you.
