Thank you for opportunity to speak here.

1. I SAW THE TEARS. I watched over 50 hours of testimony hundreds of affiants (sworn testimony) of election malfeasance observed during the 2020 elction. Saddest was the several naturalized citizens who simply wanted to be a part of the free political process in the nation they had traveled to come and call their home. The tears of those who testified was heartbreaking as they realized the honest righteous political system they thought we had in USA was simply NOT. Detroit, Atlanta, and beyond, with testimony at 7 hearings conducted by legislators in 5 states (GA, PA, MI, AZ, NV). I recorded it all. HEARTBREAKING.

2. American citizens want HONEST VOTING SYSTEMS. Gallup poll 2024 84% want voter ID and proof of citizenship.

Honest politicians MUST vote for the most honest system we can have, Do athe right thing.
