

Submitter: Sean Johnson  
On Behalf Of:  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3542

Please consider and pass legislation allowing motorcyclist's lane splitting, HB 3542. As an avid motorcycle enthusiast, Certified Long Distance Rider, a motorcyclist that commutes to work, using our state and interstate highways on a daily basis, I implore you to pass this bill allowing for lane splitting. I personally, have experienced multiple close calls with distracted motorists, nearly rear-ending me while I was stopped in traffic. It is dangerous for motorcyclists to be stuck in traffic. We are unprotected from impact. Pass this bill, please. There should be no argument against it. My understanding is that a similar bill has been sent to the governor's desk before. There should be no reason to not pass it on now. Urge the Governor to sign the bill, this time. If you don't understand the benefits of lane splitting, then you don't ride. If you don't ride then listen to the actual riders that are asking for lane splitting to be allowed. You will save lives. Thank you for your consideration.
