Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail allows more voting! It removes the barrier of needing to take time off work for those who cannot afford to take that time off or otherwise unable due to the nature of their job. It removes barriers for those with physical challenges who cannot easily travel or stand in line. It removes barriers for those with transportation difficulties. It's effective and has not shown to contribute to voter fraud. Reverting to in-person voting is an attempt to decrease voter turnout by making it harder to vote. I oppose any efforts to defeat our existing and successful vote-by-mail system!
