

Submitter: Carolyn Brooks

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

I hate the idea of forcing in person voting. It punishes people who have jobs they can't miss. Voting by mail allows more people to be included and enables people to actually research what is on the ballot. I've always been proud of Oregon's level of participation and now trying to change a very successful and legitimate voting method is just dumb.
