Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Undoing Oregon's successful and secure voter-by-mail system would be a huge step back for the state, and for democracy. In-person only voting disenfranchises working individuals, parents of young children, those without transport, and those living in rural areas. It has a negative impact on the economy, and dampens voter turnout. Please do not consider doing this!
