RE: HB 3884

The first recorded murder was with a rock. Why not ban rocks? It's not about the rocks. It is about the heart. Evil is evil. Banning guns or gun parts does nothing if evil exists. A rock in the hands of a good person i.e. David and Goliath, equals good outcome. A gun in the hands of a good person will stop a person with evil intent. Do not take that away from us!
