SB210

Oregon's system of registering voters has failed. One of the biggest debacles was the DMV registration of voters. Many registered voters party of choice was deleted leaving them unregistered much to their surprise when they inadvertently found out they were no longer registered to vote. Also, everyone was registered to any party whether they were a citizen or an illegal. It's time for a change. Make voter registration correct, don't register illegals, keep voters registered in their party of choice. Don't change their party unbeknownst to them. Thank you.
