Committee: Senate Committee On Rules  
Measure, Appointment or Topic: SB210

As an older US citizen it is far harder to stand in lines than it was 30 years ago. I LIKE the convenience of mail-in voting. You have my home or mailing address, you can always check to see if it's really me. Maybe require a drivers license number on the form. WHY are we going back in time? This is a stupid bill and should be trash binned!
