Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As convenient as mail-in voting is, I'm sufficiently concerned about voter fraud and ballot mail issues to be willing to go stand in line somewhere to vote, where I have to prove my voter eligibility with a picture ID. If I understand the bill correctly, the legislature voting to approve this bill means that it is then put before Oregon citizens to vote on it. Votes should be counted on election day, and any mail-in ballots for residents who need to vote in absentia should be received by election day. It is our right as US citizens to vote in elections. It is also our right for elections to include only valid votes, and if in-person voting is what it takes, then I'm in favor.
