HB3807

When it comes to sports, I think that everyone should be able to play sports especially when we're working with a group of kids that are high risk. When it comes down to high risk and trauma informed kids, it seems to be that it's OK for the racial slurs And the putdowns however, when the youth are trying hard to have their outline via pal of positive outcome for themselves. It seems unprecedented that each, and every adult that is an involved with support the negative on the positive when it comes down to use of color there are more white athletic coaches who talk about they are in support of diversity and even if we can't use the word diversity, we can use the word of they say that they're not racist however they are allowing their use to use racial slurs. This should be in the handbook as well, as it should have some form of punishment paper trail that does not allow anything like this to happen, which happens more than not in a school district where there are no consequences for use who use racial concerns towards minority youth or the team that comes there. It is time that we rise above all discrimination, and we begin to hold people accountable and teams that they must not use discriminatory words on a Plainfield that allows you to then some come to fears of being hurt and the environment becomes unsafe we have elite Maynor groups that should not be prayed upon because of the color of their skin. We have you that should be allowed to excel no matter who they are and where they come from to have their outlet be a support and show team spirit from the beginning of the game to the end of the game, I asked that you put in place the and hold accountable in this legislator that if you're using discriminatory or upcoming words that puts anyone in fear when it comes down to minority to use that the team is Disqualified from nationals, but it also needs to start at the local level and it also should hold a financial fee to the coaches of that team thank you very much for reading my testimony. I've seen it way too often, and I used program with high risk you that the openness white teams will play us only for the families and coaches and players to call of negative names. This is so unfair to any youth.
