Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I much prefer to mail in my ballot. Standing in line with everyone else on the same day is ludicrous. People have jobs and commitments and they can not always drop everything to come vote on a specific day. So unless the government is willing to let everyone have a day off work and compensate them for their time, we should be able to mail in our ballot. Mailing in my ballot has been much easier and is my preferred method of voting.
