

To the Oregon Legislature,

Please do not legislate voter restrictions by eliminating mail-in ballots. This measure is only intended to make voting more difficult and reduce voter turnout. This measure is anti-democracy and anti-American. Mail in ballots are safe and secure and provide a paper record of a vote. Machine voting is subject to hacking and fraud. Please represent the people, and not special interests, and defeat this bill. I urge a NO vote for the sanctity of our elections.

Thank you,

Erik Gerding
