

Submitter: Paul Brooks

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or Topic: HB3372

Co-chairs Helm and Owens, Vice-Chair Finger McDonald and members of the House Committee on Agriculture, Land Use, Natural Resources and Water:

My name is Paul Brooks and I am a community member from Ashland. I am writing today to support HB 3372. Currently in Oregon it is legal to water a ½ acre garden or use 5,000 gal/day for a commercial purpose, but neither of those apply to growing food and farm products for sale. Why is it legal to use the water for personal use, but selling a single zucchini from my garden would mean I was breaking the law?

This personally impacts me because I prefer to buy local organic food but is not easy and sometimes not legal to sell local organic food locally. It seems to be incredibly difficult for local vendors to function as effortlessly as large-scale vendors. People should be able to access and utilize water resources that come from the sky or the ground within the parcel where it is sourced.

We need to be realistic about what we prioritize for water use in our state. Allowing people to grow food or farm products for sale with a gallon restriction on ½ acre will not bankrupt the system, and farming is too much work for people to rush into production on such a small scale. Give communities back the ability to feed and provide for themselves, pass HB 3372.

Thank you,

Paul Brooks
