

Submitter: Courtney Shehan

On Behalf Of:

Committee: Joint Committee On Addiction and Community Safety
Response

Measure, Appointment or Topic: HB3197

Portland really needs the funding for addiction services. There are so many people we help here at the center that would not be possible without funding. We are the only center like this in the nation serving Native American Community, and we see the results every day. Please pass this measure, our center is crucial to the well being of underserved, marginalized community members. And in turn them becoming contributing functioning members of society helps everyone. Thank you for considering.
