On Behalf Of:

Committee: House Committee On Education

Measure, Appointment or Topic: HB2583

Virtual charter students deserve fair access to the same resources as every other public school student. They serve students who needs and learning styles cannot be served in the traditional setting. The Student Success Act was meant to support students who need it most, yet virtual charter students are excluded. HB 2583 is would create a more equitable learning environment for students who attend virtual charter schools by opening up funding that could support CTE, internships, and other opportunities available at traditional schools.
