

Submitter:

Jacob Anderson

On Behalf Of:

Committee:

House Committee On Education

Measure, Appointment or Topic:

HB2052

I strongly urge legislators to seek out and impose this bill. Children deserve adequate education, and an unfit parent should not be free to hinder the education system without good cause.

Simply stated, your child fails when you fail your child and regardless of how hard it is to accept your failures for many people of this state, that is why there is regulatory function to mandate people give their child the life they deserve to have.

I urge every person and county or other subdivision to Fully support this bill, and carry it out by all measures necessary.

As a parent, you're not just failing yourself and your child either.. you're failing our future as a bipartisan society.

-Jacob
