

Submitter: Marion Huxley

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Human Services

Measure, Appointment or Topic: SB5526

Please make sure the department of human services is funded for our disabled population. My grandson, who my husband and I are raising, has ADHD and Asperger's. He has been tremendously helped by Deschutes County Mental health and organizations such as CODSN. We need these organizations to help those less fortunate than us (unfortunate through no fault of their own)

Sincerely,

Marion Huxley, RN
