

Submitter: Jerry Niedermeyer

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3884

You are going after every gun owner regardless of whether they are law abiding citizens or criminals. If you are interested in controlling the criminal activities then you need to start with the lawyers and the judges who are letting the criminals off the hook. The laws should read minimum sentence and not maximum sentence so the lawyers and the judges have no choice in their penalties.
