

Submitter: Ananya Raghavan

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB80

I am in strong favor of this bill. It is crucial to ensure people's access to clean water, the reduction of air and water pollution from waste from factory farms, the survival of small family farms that cannot compete with large industrial operations, and more. This is a great opportunity for Oregon to set a positive example for the nation in addressing environmental and economic issues that affect their residents rather than prioritizing profits for a few years and needing to deal with horrible consequences later. Please support this bill!!
