

Submitter:	Ed Glennon
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB80

I support SB 80, to stop new or expanded factory farms in groundwater management areas. Factory farms, aka Large Confined Animal Feeding Operations (CAFOs), raise intersecting environmental, food quality, agricultural, and social justice concerns. In particular, manure from factory farms is a major source of nitrate contamination. Instead of more polluting industrial agriculture, we should support smaller farmers and sustainable methods of raising food.  
Please advance this important legislation.
