Measure, Appointment or Topic: SJR30

For the Oregon Congress to pass legislation which makes it impossible for the People of Oregon to present initiatives for citizens of every district to vote is absolutely shameful. What are you afraid of? You, the State government, have close to 4,000 pieces of legislation, (rules, laws, regulation, red tape, taxes) you wish to levy on the taxpayers; but here you are ready to outlaw the citizens from placing legislation on the ballot.

:It is not necessary to have "equal number of voters from each district" to sign a petition in order to have it on the ballot. The ballot will gather the votes that will decide if the people do or do not want the item to become law. By passing this bill, it proves the leadership of this State wants to exclude the People from having a voice in government. Terrible.
