I completely oppose this bill limiting or flat out denying developing private properties if not connected to municipal water or community wells that are forced to be metered. This is an all out assault on rural Oregon and will not be tolerated. All rural water bills are a State overreach who has no authority to decide whether or not a person can build on their own property as long as they are following buiding codes. We as rural Oregonians will not tolerate this and WE WILL NOT BE FORCED INTO CITIES TO BE CONTROLLED.
