Please vote NO on SB 544. Why are the sponsors of this bill willing to burden the taxpayer with another unnecessary tax? Previous laws passed by this governing body encourage the consumption of dangerous drugs by reducing or eliminating penalties for use or abuse. And now the sponsors want to eliminate a water vapor generator? Are humidifiers next? If the use of these devices is an overwhelming problem in schools then school administrators should be scheduled to patrol their hallways to prevent such use. Mingling with the students would be good for the administrator and students, it would show a level of involvement and concern the students probably haven't seen in a long time.

I oppose SB544, and so should you. Save the money, save the kids by being involved.
