

Submitter: Candice Fuller

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or Topic: SB1154

I oppose this bill once again government over reach. We the people vote you in and your supposed to be for the people but instead you try and take power over the very people that voted for you. No where in the constitution state or federal thst says local government or federal government or state government has the right to control our water and irrigation and how we use our private property. We paid for the property we worked the land and no where does it say we are to be controlled by our government. This is just another bill that wants to destroy private land and farm owners . To capture and land grab to sell to China or the globalist. This is a horrible bill and should be thrown out . If any of you have a conscious and soul do the right thing and do not let this pass.
