

Submitter:	Robert Egner
On Behalf Of:	Oregon property owner and tax payer
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1154

I oppose this bill heavily. The state trying to govern how I use my water. The amounts of water I use. How I store my water. Say if I can have a cistern or not. Trying to impose a meter to decide if my family well is within a proper usage....

This is all Government over reach. I will not be told how I can or can not use water. Water is literally a necessity of life! Without it my family suffers. My people suffer. I suffer.

The government Can Not and Will Not tell free people what they are allowed to do with their own property and more importantly the water they use to sustain their existence!!

When the government decides to try and invoke it's will on the literal livelihood of our families the government is going to see the true nature of the people and the lengths the people will go to protect our right to live, sustain ourselves and prosper.

The second the government becomes so brazen as to try and monitor the use of or refuse the ability to get a substance the people need for life itself. The government ceases to be of any use for the very people that are allowing its government to exist!!

The government only exists because the people allow it it's existence. The people pay taxes that allow a legislators seat to exist. Allow you to make laws and rules for the betterment of the whole.

This bill and any bill like it makes the government a non essential entity and a threat to the lives of the constituents. Which means the government is then the enemy of the people.

We the People will not sit idol! We the People will not allow this constraint on our livelihood!

NO ON SB 1154 and any other bill meant to regulate water rights and the peoples livelihood!
