HB3884

I oppose this legislation, all you people do is make gun ownership more difficult and expensive for honest citizens, none of these additional laws and fees does a.thing to keep firearms out of the hands of criminals, I read the news every day and every time law enforcement does arrest one of these people, they are charged with the crime of a convicted felon with a firearm, how do they all get firearms when they are convicted felons? Obviously there is something wrong, you are not addressing the problem from the right prospective.
