On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB2184

I live in White Salmon and work at Providence medical in Hood River. I am a home health provider and cross the bridge a number of times a day seeing patients all over Hood River and Wasco Counties and Klickitat and Skamania. The bridge is a crucial nerve allowing vulnerable elderly to receive medical care and attention in their homes. This decreases hospital stays and is proactive in some situations in having a hospital stays. I urge you to fund the bridge for the health, safety and vitality of the gorge community
