

Submitter: Capt Brad Fry

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB3884

In areas where law enforcement response times could be over an hour any impediment to secure the 2nd Amendment rights of Oregonians could cost lives. National statistics show that armed civilians stop crime. Also I just reviewed times when students and faculty lost lives in efforts to stop shootings. The times when students acted instead of running saved lives. Permitting other students the seconds needed to evacuate.
