

Submitter: Marshall Sanders

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural  
Resources, and Water

Measure, Appointment or Topic: HB3372

It purely makes common sense to allow small farmers to water their crops with well on site and allow them to sell those crops to us local consumers. That this was not previously stipulated in law is absurd. It now needs to be corrected so small farmers can stay in business from their own local resources. We want to buy organic, pastured, regenerative farm's local foods, a great reason we live in Oregon. Please!
