My name is Gautami Newalkar and I am a community member from Portland. I am writing today to support HB 3372. Currently in Oregon it is legal to water a ½ acre garden or use 5,000 gal/day for a commercial purpose, but neither of those apply to growing food and farm products for sale. Why is it legal to use the water for personal use, but selling a single zucchini from my garden would mean I was breaking the law?

This personally impacts me because I am active member of the community and visit the Beaverton and Hillsboro markets on a regular basis. I love buying locally owned, culturally significant foods that are fresh and organic.

We need to be realistic about what we prioritize for water use in our state. Allowing people to grow food or farm products for sale with a gallon restriction on ½ acre will not bankrupt the system, and farming is too much work for people to rush into production on such a small scale. Give communities back the ability to feed and provide for themselves, pass HB 3372.

Thank you,

Gautami Newalkar
