

Submitter: Diane Chavez

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB80

Water is life. We need to protect Oregon's ground water and the communities that water supports for future generations. There are better ways to raise animals than in confined animal feeding operations. Let's support farming technologies that can support generations to come over technologies that only provide short term profits to large agribusinesses and leave behind pollution for future generations to deal with.
