Measure, Appointment or Topic: HB2583

"My child is TAG and was grossly underserved in our local public school. She chose virtual charter school because it allows her to excel and choose from a much wider variety of courses. She is much happier now that she is in a charter school and she finds her current courses offered engaging and challenging. Her current charter school is unfairly excluded from crucial Student Success Act funding. HB 2583 corrects this by ensuring equal access to resources while keeping funds within Oregon's community-run schools. It's time to support all students and their diverse educational needs."
