Measure, Appointment or Topic: HB3197

Strongly OPPOSE! Why are you trying to hit our small businesses with more tax increases and regulations? Oregon is fast becoming a very unfriendly state for private business.

There is another way to fund "essential services" in our state, and that is by cutting the budget and getting rid of unnecessary costly and bloated programs. If the funds aren't there it is because you won't do meaningful spending cuts. The private sector has been tightening its belt ever since the pandemic and struggling to make ends meet. You should be required to do the same. NO NEW TAXES!!!
