SB697

Strongly OPPOSE! This is another misguided attempt by the legislature to further restrict legal gun ownership and undermine our rights under the U.S. Constitution. Oregonians are already (wrongly) prohibited from buying handguns under the age of 21. Now you want to take away more rights of our young people who are old enough to vote and serve in the military, potentially dying in that service. This makes no sense. Furthermore this bill will do nothing to stop gun crime as has been shown over and over again in the most restrictive states like California. Criminals do not care about your laws. Those of us who are law abiding merely want to keep our rights given to us under the constitution. We don't appreciate your efforts to infringe on those rights. No on SB 697
