Committee: Senate Committee On Rules

Measure, Appointment or Topic: SJR30

WE THE PEOPLE

That's the foundation of this country. It's important to our democracy that THE PEOPLE, not just the government, are able to suggest laws for THE PEOPLE to vote on. If we are not heard by our representatives, we need another method for getting our ideas, issues, solutions to ballot for discussion, debate and vote by the people. It's already too hard for an average citizen to make change on a national or statewide level. It's already too hard hard to get initiatives on ballots. Stop trying to silence us! Stop trying to keep us from participating! This is OUR government, we have a place and a duty here.
