

Submitter: Madison Willhoft

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or Topic: SB1154

There's been talk about legislation in Oregon that could require meters on private wells (like HB 3419). I'm personally against it because I believe it places an unnecessary burden on rural property owners and doesn't really address the bigger water usage issues in our state.

If you care about property rights and rural living, I encourage the state to protect our access to water and keep unnecessary regulations in check!
