Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB698

Strongly OPPOSE this bill.

I don't understand why you are even proposing this. It defies logic and common sense. You are effectively trying to disarm the very group of people who are the LEAST likely to use a gun to commit a crime! This bill would make an older woman like myself more vulnerable and defenseless. Criminals don't care about your laws, they look for soft targets. So I will be at the mercy of criminals, unable to protect myself and anyone around me. You are proposing to disarm trained and experienced legal gun owners like myself. And the areas you want to restrict will unfortunately be where CCL holders are needed most. You want to deny us the right to protect ourselves and those around us, effectively making us victims.

It is our right as U.S. citizens to choose whether or not to own firearms. Some of you are afraid of guns, and think owning a gun is wrong, dangerous and unnecessary. But someone with a CCL may one day save your life. Vote NO and do not move this proposal out of committee.
