This bill is an undue burden on all property/homeowners in Oregon. We raise livestock and grow gardens, to feed our family and extended family. We built our home, developed our land, and paid dearly to have a well drilled and to have the potential burden of having our water metered, inspected, and our septic system inspected (with what they aren't telling us, will be for a hefty fee) is just another way for the Democrats to ruin Oregon and our livelihoods. I oppose and strongly urge everyone to oppose this bill.
