

Submitter: J Cairo

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On  
Natural Resources

Measure, Appointment or Topic: HB5009

Please fully fund the Private Forest Accord to protect private forestlands, fish, wildlife and clean water and provide for the decades of hard work by community members, timber industry representatives, nature conservation organizations, fishing groups and scientists to be completed. Full funding is investing in a healthier, richer, more climate resilient future for all of us, our children and our children's children by providing for planning now before we lose the opportunity forever.

Thank you!
