

Submitter: Ronald Lamb

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB697

SB 697 would disproportionately impact rural communities who use firearms for hunting, pest control, and protection from wildlife. SB 697 is a direct attack on our rights under the 2nd Amendment. As a veteran of the US military, I was 18 years old was issued a weapon, trained on the use of a weapon and advised of the consequences of my actions with this weapon. Responsibility, respect and knowledge of consequences if I failed to secure, maintain and use a weapon in accordance with rules and laws. This law strips all responsibilities from law abiding adults at the legal age of 18 to 21 years old. SB 697 is the perfect example of government overreach.
