Measure, Appointment or Topic:	SB1154

This bill makes me so frustrated. My husband and I have spent our entire lives working hard, saving carefully, and eight years ago, finally found the place we wanted to put a home and raise our children. We got out of town because we wanted our kids to have a safe place to grow up, raise our own food, learn to care for the land, and have a free, peaceful place to call home. The legislation that is being proposed is a terrible overreach into our lives. The state does not and should not have the right to come onto our property, take control of our water source, and tell us we cannot use it as we see fit! I implore you, as an independent voter (I'm not affiliated with any political party!), do not do this. Water is such a basic need, and the cost we have already put into getting a reliable, clean, safe, LEGAL source of it for our home is not something we can afford to increase. I want to keep wells and septic systems affordable for future generations of Oregonians who have dreams for their families, just as I have for mine. Please vote NO on this bill!
