SB429

I oppose this insanity! Out of state interest groups are influencing our politicians to violate the constitutional rights of Americans. A right delayed is a right denied. Citizens already undergo background checks where the background check can legally take up to 72 hours to determine if a person is prohibited or not. This addition to something like a permit to purchase requirement completely burdens a purchaser and is meant to discourage firearm ownership. It is unconstitutional and the sponsors of this bill appear to have nefarious intent.
