

Submitter: Bobbee Murr

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1187

Shocking how many people on this testimony roster oppose this bill, citing their religious beliefs, falsehoods and lies, and denying the deadliness of extreme weather, widespread fires, drought, flooding, landslides, and more.

Oregon needs this law: FEMA will not exist to help the state, nor can any other federal help be counted on. Fossil fuel corporations have had record profits, record exports from this country, and they avoid paying taxes in whatever manner possible.

Oregonians need help to survive disasters caused by carbon combustion forced on us by big oil.
