If this bill passes it will hurt the lower income people. I for one will not be able to afford the expense of the proposed changes to my private well. You are always talking about how you want to help the lower income people and then you try to get something like this passed. It doesn't make sense. This bill will no way help anyone but the state, and your job is to help the people. Do not put another expense on the already high cost of living, of the lower income and seniors in our state.
