On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3542

I'm submitting my positive position for this bill as a motorcyclist for 50 years. I lived in California where lane sharing is allowed for motorcycles, and in certain travel conditions, it can be done safely. In today's world where many drivers are looking at their cell phones and driving, this is one way to reduce rear-end collisions between cars and motorcycles. Commuting in the Bay Area, I was able to lane share cutting my commute time in half or more. There are times in Oregon that I wish I could do this today. I hope that this Bill passes to allow us this safety convenience. Thank you.
