Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB696

The law abiding citizens of Oregon are struggling to understand how making the possession of a legal device into not only a crime but an "emergency" will in any way reduce the criminal activity we are seeing in our state. We are all aware that it is in fact not an emergency, does not reduce crime, does not reduce the amount of criminals using guns or attachments illegally. All it does is in fact place additional limits and restrictions yet again on law abiding citizens. There seems to be a disconnect between the Senate and the citizens of the state. We would like laws that reduce crime and prevent criminals from being criminals not limit what law abiding citizens can have.
