

Submitter:

Svein Wiese Hansen

On Behalf Of:

Committee:

Senate Committee On Judiciary

Measure, Appointment or Topic:

SB697

The citizens of Oregon would like the Senate to explain why their focus is now on limiting the constitutional rights of its citizens? If a citizen of Oregon is mature enough to vote and serve in our armed forces why is the Senate deeming now that they are not mature enough to own a firearm? Will the Senates next focus be on limiting those under 21 from free speech? Can the citizens of the State assume that the Senate has a study or some sort of facts showing that an 18-20 year old citizen who is law abiding are the ones committing crimes and with this restriction of their constitutional we will see a significant reduction in murders and gun crimes as those 18-20 year old's are no longer able to purchase a hunting rifle? Oregon is tired of new laws that do not address the actual problems of the state and ask the Senate to please focus on making the state better.
